

SOFTWARE REQUIREMENT SPECIFICATION (SRS)

Gold, Diamond & Jewellery Manufacturing Management System

Project Overview

A centralized Admin-based Jewellery Manufacturing ERP for managing Gold, Diamond, Stone, Production, Inventory, Billing, Demo Sales, Accounts, Expenses, E-Brochure and Reporting.

The system will track the complete lifecycle from Raw Gold Purchase → Manufacturing Issue → Diamond/Stone Allocation → Finished Jewellery Production → Quality Verification → Stock Management → Billing → Customer Delivery.

Technology

Web Application

- Frontend: Laravel Blade / ReactJS
- Backend: Laravel
- Database: MySQL
- Storage: Cloud Storage for Product Images
- Responsive Access: Desktop, Tablet & Mobile Browser

USER ROLE

Admin Only

Single Admin Login with access to all modules.

MODULE 1: DASHBOARD

Dashboard Summary

- Raw Gold Stock
- Diamond Stock
- Stone Stock
- Manufacturing Orders
- Pending Verifications

- Finished Jewellery Stock
- Demo Sales Pending Return
- Sales Summary
- Expense Summary
- Cash Balance
- GST Sales Summary

MODULE 2: RAW MATERIAL MANAGEMENT

Gold Inventory

Material Types

- Gold Bars
- Gold Coins
- Bullion
- Old Gold
- Scrap Gold

Fields

- Entry No
- Purchase Date
- Supplier
- Purity
- Gross Weight
- Net Weight
- Purchase Rate
- Total Value

Diamond Inventory

Fields

- Diamond Code

- Shape
- Quality
- Clarity
- Colour
- Carat Weight
- Pieces Count
- Purchase Rate
- Total Value

Stone Inventory

Fields

- Stone Name
- Colour
- Weight
- Quantity
- Purchase Rate
- Total Value

MODULE 3: MANUFACTURING ORDER MANAGEMENT

Create Production Order

Details

- Production Number
- Select vendor
- Product Type
- Design Number
- Product Name
- Expected Weight
- Quantity

- Start Date
- Completion Date

Raw Material Allocation

Gold Issue

- Gold Weight Issued

Diamond Issue

- Diamond Type
- Diamond Quality
- Diamond Pieces
- Diamond Weight (Carat)

Stone Issue

- Stone Type
- Stone Quantity
- Stone Weight

System will deduct issued quantities from inventory.

MODULE 4: DIAMOND & STONE RECONCILIATION

Before Production

Admin enters:

Diamonds

- Number of Diamonds Issued
- Diamond Weight
- Diamond Quality

Stones

- Number of Stones Issued
- Stone Weight

After Production

Admin verifies:

Diamonds Returned in Product

- Number of Diamonds Used
- Diamond Weight Used

Stones Returned in Product

- Number of Stones Used
- Stone Weight Used

Reconciliation Report

System compares:

Diamonds

Issued:

- 20 Pieces

Returned:

- 20 Pieces

Difference:

- 0

Stones

Issued:

- 10 Pieces

Returned:

- 9 Pieces

Difference:

- 1 Piece Missing

System generates alerts for shortages.

MODULE 5: FINISHED PRODUCT MANAGEMENT

Product Entry

Product Information

- Product Code
- Design Number
- Product Name
- Category
- Purity
- Gross Weight
- Net Weight
- Diamond Weight
- Diamond Count
- Stone Weight
- Stone Count
- Making Charges
- Product Description

Product Images

Upload:

- Front View
- Side View
- Additional Images

MODULE 6: GOLD WEIGHT RECONCILIATION

Verification Process

Gold Issued 100 gm

Finished Product 96 gm

Wastage 4 gm

System automatically calculates:

- Wastage %
- Production Loss
- Balance Gold

MODULE 7: QC & APPROVAL

Verification

- Gold Weight Check
- Diamond Count Check
- Diamond Weight Check
- Stone Count Check
- Stone Weight Check
- Product Finishing Check

Status

- Approved
- Rework
- Rejected

MODULE 8: FINISHED STOCK MANAGEMENT

Inventory Tracking

- Available Stock
- Reserved Stock
- Demo Stock
- Sold Stock

Search Filters

- Product Code
- Category
- Weight

- Purity
- Diamond Weight
- Design Number

MODULE 9: AUTO E-BROCHURE MANAGEMENT

Automatic Catalog Creation

Whenever product image is uploaded:

System automatically creates product page.

Product Catalog Includes

- Product Images
- Product Name
- Design Number
- Weight
- Diamond Details
- Product Description

Categories

- Rings
- Chains
- Bangles
- Earrings
- Pendants
- Necklace Sets

MODULE 10: DEMO SALE MANAGEMENT

Purpose

Customers or Dealers may take multiple products for selection.

Demo Issue

Details

- Customer Name
- Mobile Number
- Product List
- Quantity
- Issue Date

Status:

- Demo Issued

Demo Return

Customer returns products.

Example

Issued:

- Ring A
- Ring B
- Ring C

Returned:

- Ring A
- Ring C

Selected:

- Ring B

System Actions

Returned Products

Automatically moved to Stock.

Selected Product

Automatically moved to Billing.

Demo Tracking Report

- Pending Demo Returns
- Completed Demo Returns
- Product Wise Demo Status

MODULE 11: SALES BILLING

Customer Billing

Customer Details

- Customer Name
- Mobile Number
- Address

Product Selection

- Product
- Weight
- Diamond Details
- Making Charges

GST Billing

Dropdown Selection

Option 1:

- GST Bill

Option 2:

- Non-GST Bill

System generates invoice accordingly.

Invoice Features

- Invoice Number
- QR Code
- Print Invoice
- PDF Invoice

MODULE 12: RECEIPTS & PAYMENT MANAGEMENT

Customer Receipt

- Advance Receipt
- Full Payment Receipt
- Balance Receipt

Production Expense Receipt

Track:

- Manufacturing Charges
- Labour Charges
- Diamond Setting Charges
- Stone Setting Charges
- Miscellaneous Charges

MODULE 13: CASH & EXPENSE MANAGEMENT

Cash Book

Income

- Product Sales
- Customer Payments

Expenses

- Labour Charges
- Manufacturing Expenses

- Transportation
- Miscellaneous Expenses

Daily Cash Closing

Display:

- Opening Balance
- Cash Received
- Expenses
- Closing Balance

MODULE 14: ACCOUNTS REPORTS

Sales Reports

- Daily Sales
- Monthly Sales
- GST Sales
- Non-GST Sales

Expense Reports

- Daily Expense
- Monthly Expense

Cash Reports

- Cash Flow
- Cash Balance

MODULE 15: INVENTORY REPORTS

Gold Reports

- Gold Purchase
- Gold Consumption
- Gold Wastage

Diamond Reports

- Diamond Stock
- Diamond Usage
- Diamond Reconciliation

Stone Reports

- Stone Stock
- Stone Usage
- Stone Reconciliation

Finished Product Reports

- Stock Summary
- Category Wise Stock
- Sold Products

MODULE 16: AUDIT LOGS

Track all activities:

- Stock Changes
- Weight Changes
- Product Creation
- Billing Activities
- Expense Entries
- Invoice Generation

PROJECT DELIVERABLES

Included Modules

- ✓ Dashboard
- ✓ Gold Inventory
- ✓ Diamond Inventory
